Animal Shelters

Animal Shelters

Twister shelters are specifically designed with the comfort and protection of your animals in mind.

Twister's three-sided livestock shelters shield, shade and protect your livestock from the elements. Manufactured with Galvalume corrugated steel and powder coated frame, Twister shelters promise to outlast wooden models by years!

With a knock-down and bolt together design, Twister shelters are easy to assemble and erect on site.

Model	Lengths	Depth	Height
CF	6',12',15',18',24'	8'	5'
HS	6',12',15',18',24'	9.5'	7.5'

The 8' deep x 5' high shelter comes complete with adjustable calf bar to keep larger cattle from entering.

The 9.5' deep x 7.5' high shelter is equipped with stiffened side wall. Flashing edges are plastic trimmed and round bolt heads are used on the inside to protect the horses from injury.

Twister portable shelters offer longevity, safety and low maintenance costs.
